How can you help yourself learn a new language, such as English? There are several ways to make learning English a little easier and more interesting.

The first step is to feel positive about learning English. If you believe that you can learn, you will learn. [ア] You do not have to understand everything all at once. It is natural to make mistakes when you learn something new. [イ] In other words, do not worry about taking risks.

The second step is to practice your English. For example, write in a journal, or diary, every day. After several weeks, you will see that your writing is improving. In addition, you must speak English every day. You can practice with your classmates outside class.

The third step is to keep a record of your language learning. You can write this in your journal. After each class, think about what you did. Did you answer a question correctly? Did you understand something the teacher explained? Write these accomplishments in your journal.

You must be positive about learning English and believe that you can do it. It is important to practice every day and make a record of your achievements. You will enjoy learning English, and you will have more confidence in yourself.
